Your point of sale
“everywhere
and
every time“

By using our smartphone-app, your sales staff can find out about the current tariffs at a glance whenever they want and at any time they want.

Our tablet-app enables your sales staff to advice your new customers on the best choice of tariff. Furthermore, your sales staff can send the resulting contract data of your new customer directly and without time loss along with the customer signature to your service staff for further processing.

- » Localization of the position and assignment of possible roads and network operators by means of post code and the location
- » Display the available tariffs and their corresponding details
- » Bank account check by means IBAN
- » Verification of the address of the household or company and the recipient of the invoice
- » Immediate dispatch of contract details including customer signature

All tariff information is available
and all entry are utilized in recording
the contract data.
